MANITOBA POPULATION ESTIMATES – JULY 1, 2003

		July 03	July 02	Change
POPULATION		1,162,800	1,155,500	Up 7,300
NET MIGRATION	(July to June)		**2002/03**	**2001/02**
	Interprovincial		-1,189	-4,344
	Total		3,500	69

Manitoba' s total population was estimated at 1,162,800 persons as of July 1st, 2003, an increase of 7,300 persons, or 0.63%, from the July 1st, 2002 total of 1,155,500.

Manitoba' s net interprovincial migration loss totaled -1,189 persons for the census year ending June 30th, 2003, an improvement from the net loss of -4,344 persons for the previous year. Manitoba' s 2002/03 loss was almost entirely to Alberta (-766), Quebec (-258) and British Columbia (-208), with slightly smaller losses to Ontario (-165) and the three Territories (-64). Manitoba gained mostly from Saskatchewan (164), with smaller gains from Nova Scotia (72) and Newfoundland (23).

Seven out of ten provinces had net interprovincial migration losses in 2002/03. Alberta (12,081) showed a large gain while Nova Scotia (777) and Prince Edward Island (571) observed smaller increases. British Columbia (-4,591) and Saskatchewan (-4,223) continue to report large losses through interprovincial migration.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration gain of 3,500 persons in 2002/03, compared to the net gain of 69 persons in 2001/02.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 1971/72 onward. This MBS report incorporates all revisions.

Tables 5, 6 and 7 present the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Tables 1, 2 and 4, respectively.
